OBJECTIVE

- Business student pursuing roles in the UAS, robotics, and defense industries.
- Hands-on CNC machining, 3D printing, and UAS/FPV systems background, paired with business analytics and design thinking.

TECHNICAL SKILLS

- SolidWorks CAD/CAM (5 years), CNC mills, CNC lathes, 3D printers, laser cutters, MIG welding.
- UAS build & repair: soldering, ESC and flight controller wiring, Betaflight firmware configuration, analog video systems.
- Excel data tracking and visualization, project coordination, technical presentations.

UAS / FPV SYSTEMS

- Designed, built, and configured a custom 5-inch FPV aircraft end to end: frame, power stack, motors, soldering, analog video, firmware tuning.
- Diagnosed and resolved hardware and firmware issues to improve flight performance and reliability.
- FAA Part 107 Remote Pilot Certificate, with flight experience across multiple public land sites.

CNC MACHINING & FABRICATION

- 5 years of SolidWorks CAD/CAM design experience for manufactured components.
- Set up and operated CNC mills, CNC lathes, 3D printers, laser cutters, and MIG welders.
- Machined a 13-part aluminum tape dispenser using a CNC mill, laser cutter, and lathe, with a precision-fit 5-piece lid built to match a partner's base.
- Turned a brass exacto knife handle on a manual lathe with a spring-loaded ball bearing retention mechanism.
- Machined a CNC aluminum revolver pen holder with a press-fit bearing and hardwood base.

BUSINESS, ANALYTICS & COMMUNICATION

- Tracked project progress and built Excel visualizations, graphs, and data summaries.
- Coordinated engineering and marketing projects to keep technical requirements and deadlines on track.
- Delivered organized, persuasive presentations on technical projects to technical and non-technical audiences.

EDUCATION

Western Colorado University, Gunnison, CO

2023 – Present

- Business Administration major, Analytics minor, Design Thinking & Innovation certificate, Graduation: May 2027

Cherry Creek High School, Greenwood Village, CO

2018 – 2023

WORK HISTORY

Facilities and Operations Staff, Western Colorado University

May 2025 – January 2026

- Coordinated dormitory water heater replacements and plumbing projects.
- Prioritized and completed work orders across campus.

Makerspace Teaching Assistant, WCU

August 2023 – January 2024

- Supported students and faculty across CNC machining, 3D printing, and MIG welding labs.
- Tracked project progress to help teams meet deadlines.
